

Co-host a demo day for the people you serve.

You invite your members or clients. We build the session around the work they do.
We share what we learn with you first.

IMMERSION IN MOTION • THE SOUTHERN UNIVERSITY MOBILE CAVE, PRESENTED WITH XR JAGS • GRAND OPENING IN BATON ROUGE, DATE TO BE ANNOUNCED

A plant crew meets the Mobile CAVE. AI-made image, not a photo of the real truck.

• WHAT YOU GET

Four ways to work together, and what you get back.

Co-host, refer or co-deliver training for the field your people work in.

INDUSTRY GROUPS

Co-host a demo day

Insurers, safety consultants and industry groups: co-host a demo day built around your members' work, or sponsor one.

COMMUNITY

A community night

Nonprofits, churches, libraries and youth programs: a community night in your own parking lot.

HOW WE WORK

Findings shared with you first

What we learn from your people comes back to you before it goes anywhere else.

WORKFORCE AND VETERANS

Skill-demonstration sessions

Workforce boards and veteran services: sessions where veterans and job seekers show real skill before the first interview.

AGENCIES

A crisis drill in 3D

Emergency management, fire, police and parish government: a drill built on your own plan, for your leaders and responders.

• HOW IT WORKS WITH THE MOBILE CAVE

Built for your field. Run at your site.

01 A 20-minute conversation

We ask what stops the people you serve from training more.

02 Pick the format

A demo day, skill-demonstration sessions, a community night or a crisis drill.

03 You invite, we come

You invite your members or clients. We run the session at your site.

04 Debrief and share

An instructor replays the moment and asks why. We share findings with you first.

Each specific scenario is built or licensed with you before your demo.

A visiting group inside Southern University's CAVE room, in 3D glasses. Photo.

• THE FACTS

What is set today.

• Confirmed

- The grand opening will be at Southern University, Baton Rouge; the date will be announced.
- The Mobile CAVE lists eight training fields: K-12, crisis, emergency, healthcare, technology, research, manufacturing and drones.
- Southern University describes the Mobile CAVE as bringing advanced training and simulation to schools, communities and industry partners.

• THE ASK

Bring training for your field to your members or clients.

Use the form on the main page and choose “Partner with you,” or email us directly.

Page online: immersion-in-motion.vercel.app/partners/

CAVE means Cave Automatic Virtual Environment. The truck CAVE uses 3D glasses. The 3D printer belongs to the AM Lab, not the truck. Seven sub-projects. Eight training fields. Eight audience pages for twelve kinds of organizations. Grand opening at Southern University, Baton Rouge, date to be announced. **Pictures of the truck are AI-made images**, not photos of the real truck. Photos of people and the CAVE room are real.
