

Training built around your parish's own needs.

Your storm plan, your school's science unit, your clinic's cases, practiced in the parish. No building to equip.

IMMERSION IN MOTION • THE SOUTHERN UNIVERSITY MOBILE CAVE, PRESENTED WITH XR JAGS • GRAND OPENING IN BATON ROUGE, DATE TO BE ANNOUNCED

The Mobile CAVE at a rural school. AI-made image, not a photo of the real truck.

• WHAT YOU GET

What a stop can do for a rural community.

Rural and small facilities are farthest from the labs. Smaller sites can be scheduled on a tour, each stop built around local needs.

SCHOOLS

A science-lesson visit

For your schools. We ask your teachers which of their own science units to build around.

COMMUNITY

A community night

Families want STEM nights and career exposure close to home. A local lot hosts the session for the evening.

HEALTHCARE

Training for small clinics

Short sessions built around your clinic's cases and booked around shifts, so staff do not travel to a fixed lab.

PARISH GOVERNMENT

A crisis drill in 3D

For parish leaders and responders, built on your own storm or crisis plan. Crisis plans are tested rarely, and live exercises cost a great deal.

WORKFORCE

Skill-demonstration sessions

Veterans and job seekers show real skill before the first interview.

• HOW IT WORKS WITH THE MOBILE CAVE

A local partner hosts. Your parish sets the training.

01 A 20-minute conversation

We ask what stops people in your parish from training more.

02 A local host

A local partner opens its lot for the day.

03 Leaders are invited

Parish officials and local leaders are invited, along with the people your partners serve.

04 Priorities and findings

Each organization names its top three priorities. Findings are shared back with partners first.

Clinic and hospital staff practice their own cases close to home. AI-made image, not a photo of the real truck.

• THE FACTS

What is set today.

• Confirmed

- The grand opening will be at Southern University, Baton Rouge; the date will be announced.
- The Mobile CAVE lists eight training fields: K-12, crisis, emergency, healthcare, technology, research, manufacturing and drones.

• THE ASK

Ask for a stop in your parish.

Use the form on the main page and choose “Government or emergency services” or “Workforce, veteran or community organization.”

Page online: immersion-in-motion.vercel.app/rural-councils/

CAVE means Cave Automatic Virtual Environment. The truck CAVE uses 3D glasses. The 3D printer belongs to the AM Lab, not the truck. Seven sub-projects. Eight training fields. Eight audience pages for twelve kinds of organizations. Grand opening at Southern University, Baton Rouge, date to be announced. **Pictures of the truck are AI-made images**, not photos of the real truck. Photos of people and the CAVE room are real.
